

# A view from the top

by JEANETTE BAER SHOWALTER

We marvel at the majestic beauty of mountains, tremble at the fury of a volcano, and often delight in climbing the highest peaks. From the historical eruption of Vesuvius to the challenge of the highest mountain on land, Mt. Everest, we have always been fascinated by these gigantic landforms. Below are forty of the world's tallest, most beautiful, or most dangerous peaks. You can find them in the puzzle forward, backward, horizontally, vertically and diagonally.
